

ЭЛЕКТРОСХЕМЫ

Схема комбинации приборов

Монтажный блок

This is a detailed wiring diagram for a vehicle's electrical system. The components are numbered 1 through 30, and the diagram uses color-coded wires (red, blue, green, yellow, black) to show the circuit paths. The components include:

- 1:** Battery terminals.
- 2:** Headlight and horn relays.
- 3:** Horn.
- 4:** Horn.
- 5:** Horn.
- 6:** Alternator.
- 7:** Ignition switch.
- 8:** Ignition switch.
- 9:** Ignition switch.
- 10:** Ignition switch.
- 11:** Ignition switch.
- 12:** Ignition switch.
- 13:** Ignition switch.
- 14:** Ignition switch.
- 15:** Ignition switch.
- 16:** Ignition switch.
- 17:** Ignition switch.
- 18:** Ignition switch.
- 19:** Ignition switch.
- 20:** Ignition switch.
- 21:** Ignition switch.
- 22:** Ignition switch.
- 23:** Ignition switch.
- 24:** Ignition switch.
- 25:** Ignition switch.
- 26:** Ignition switch.
- 27:** Ignition switch.
- 28:** Ignition switch.
- 29:** Ignition switch.
- 30:** Ignition switch.

The diagram shows the following connections:

- The battery (1) is connected to the main power line.
- The alternator (6) is connected to the main power line.
- The ignition switch (7) is connected to the main power line.
- The horn (3, 4, 5) is connected to the main power line.
- The headlight and horn relays (2) are connected to the main power line.
- The ignition switch (9) is connected to the main power line.
- The ignition switch (10) is connected to the main power line.
- The ignition switch (11) is connected to the main power line.
- The ignition switch (12) is connected to the main power line.
- The ignition switch (13) is connected to the main power line.
- The ignition switch (14) is connected to the main power line.
- The ignition switch (15) is connected to the main power line.
- The ignition switch (16) is connected to the main power line.
- The ignition switch (17) is connected to the main power line.
- The ignition switch (18) is connected to the main power line.
- The ignition switch (19) is connected to the main power line.
- The ignition switch (20) is connected to the main power line.
- The ignition switch (21) is connected to the main power line.
- The ignition switch (22) is connected to the main power line.
- The ignition switch (23) is connected to the main power line.
- The ignition switch (24) is connected to the main power line.
- The ignition switch (25) is connected to the main power line.
- The ignition switch (26) is connected to the main power line.
- The ignition switch (27) is connected to the main power line.
- The ignition switch (28) is connected to the main power line.
- The ignition switch (29) is connected to the main power line.
- The ignition switch (30) is connected to the main power line.
